Using Digital ID Badges To Combat COVID-19

Digital ID Badging Solutions For COVID-19 Issues

***On Demand
Identification For
Essential Workers***

***Track 10 Person Limits
At Job-Sites To Keep
Them Open***

***Perform Contact
Tracing If Workers Are
Infected***

How Virtual Badge Works

Louis – Construction
Project Superintendent

I use Virtual Badge to save time onboarding my workers and to reduce risk at the many job-sites I manage.

1)

Our people download Virtual Badge and complete our company onboarding process to receive a badge and start working much faster than before.

2)

We manage site access and worker roles remotely based on the worker's licenses, certifications, and qualifications.

3)

With VB job management is easier because we can control access, track worker time and assign work tasks.

4)

With VB we've reduced our risk exposure because we know everyone is background checked, compliant, and safe to work on-site.

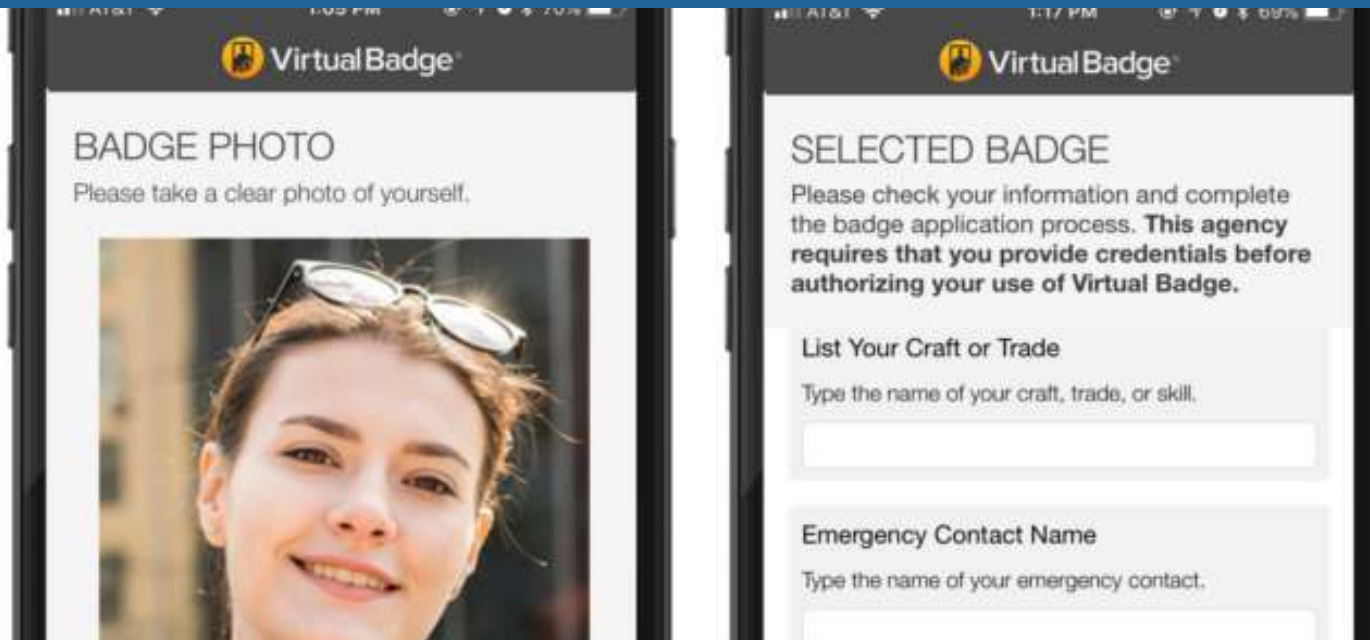

5)

Virtual Badge helps us get more done with less management.

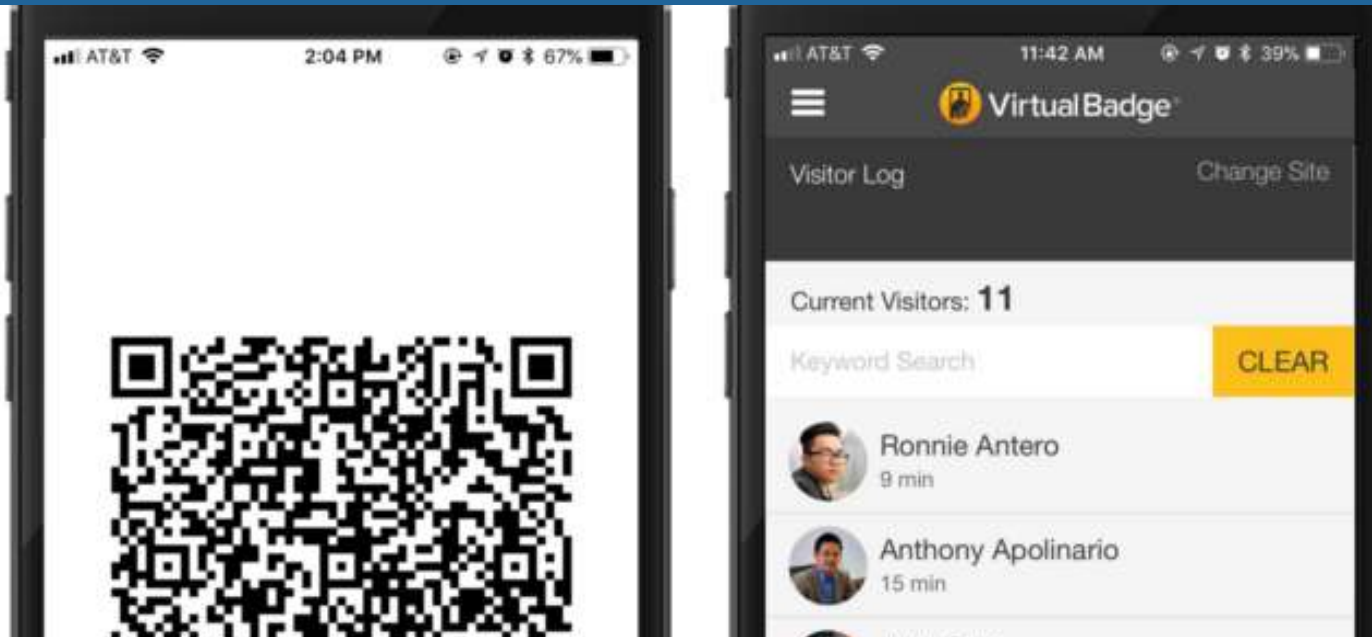

6)

On Demand Badging & Identification

- *Onboard Workers Instantly By Using Virtual Badge Mobile App*
- *Setup Different Workflows For Different Roles / Sub-Contractors / Job-Titles*
- *Virtual Badges Customized With “Essential Personnel” Messaging*

Control Site Access / 10 Person Limits

- Scan Badges With Smartphone / Self-User Check-In/Out / GPS-Based
- Know Exactly Who Is On-Site & Enforce COVID-19 Safety 10-Person Limit
- Create Customizable Man-Count Reports (Per-Worker / Company / Zone / etc)

COVID-19 Contact Tracing

- *Daily COVID-19 Worker Screening Questionnaires Provide Liability Protection*
- *Historical Records Of Who Accessed What*
- *Perform Contact Tracing In The Event A Worker Is Infected*

Contact Virtual Badge Now:

- *Setup Takes Less Than 1 Hour*
- *Issue Badges Immediately*
- *Manage Digital ID Badges Remotely*
